# OPNS Informatics Digest

Why

How

What

We believe in efficient workflows for physicians

Transfer more information automatically

Using what's already available, instead of recreating the wheel
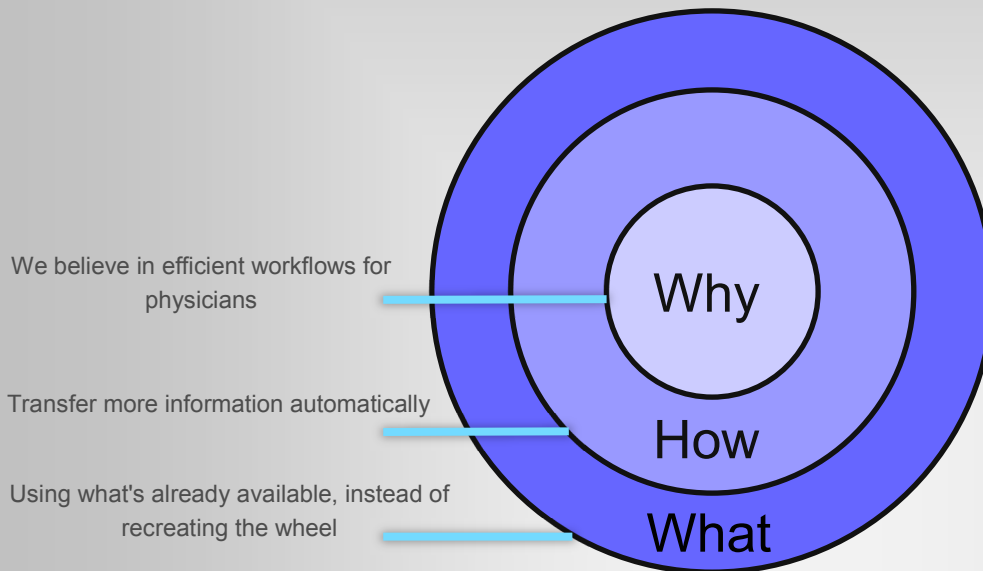

## OPNS Informatics

The OPNS Informatics team is providing you with the tools.

We're also here to help.

Let's use the tools to build our Patient Centered Medical Home and create our Patient Centered Medical Home Neighborhood.

### Health Focus Registry eReferral!

Why did we create eReferrals in the Health Focus Registry? We believe in challenging the status quo and we believe in thinking differently to make Health Care more organized to fit what the physicians have asked for as opposed to telling them what to do. In challenging the status quo we believe we filled a need with a "why not?" solution.

## Why

### Simple, Coordinated, Innovative

- The eReferral addition to Health Focus is simple and user friendly

- Health Plan quality, Statewide ADTs, labs, integrated Consolidated Clinical Document Architecture (CCDA) are available to view

## How

### Your biggest asset, three clicks away

- OPNS has gathered the data, created the user friendly transfer process, PCP: simply click send and SCP: check your inbox

- Click 1: Select your patient, Click 2: Select referring to physician, Click 3: Send

## What

### A registry aggregates patient clinical data

- By sharing the data compiled with PCPs and SCPs, we've created a population health management neighborhood

- All physicians share prescribed medications and health plan quality gaps.

# Health Focus Registry eReferral

## Why

**Simple**

**Coordinated**

**Innovative**

## How

**Click #1 Select Patient**

**Click #2 Select Physician**

**Click #3 Send**

## What

**Longitudinal**

**Historical**

**Clinical Information**

**Driven by a cause!**

**Congratulations to Rachel S. at Commerce Primary Care, PC - Dr. Jain & Jonnalagadda**

**Rachel has accessed 58/58 of Dr. Jain and 148/148 of Dr. Jonnalagadda's Admit, Discharge, and Transfer (ADT) Notification Reports within Health Focus from January 2017 through May 2017.**

**Remember - One portion of the 2017 OPNS Physician Incentive is to access 75% of the ADT Reports for the calendar year of 2017.**

**Why? This report helps coordinate Post-Discharge Follow-Up Appointments, Medication Reviews, Patient Education, and Prevent Readmissions.**

# eReferral
## An OPNS integrated network that CAN

Your Quality and Utilization affects the whole OPNS Network.

Sharing of clinical data is for population health management.

Integrate with people that believe what you believe.

## The OPNS Network Approach

**Independent Physicians**
OPNS Network managing healthcare as a team

**Innovative Integration**
Electronically aggregated clinical integration

**Communication**
Physician to physician in real time

**eReferrals**
Eliminate unnecessary faxing and printing

**24/7 Online Access**
Available on any screen like Facebook, Instagram, Twitter and texts
