

OPNS Informatics Digest

August 2017

INTEROPERABILITY

Prepare now to position yourself for the future of statewide data exchange!

OPNS Informatics

The OPNS Informatics team is providing you with the tools.

We're also here to help.

Let's use the tools to build our Patient Centered Medical Home and create our Patient Centered Medical Home Neighborhood.

Process Excellence

Each week, a meeting, phone conference, or statewide health care leadership collaborative includes a new “must have” to succeed in today’s Value Based Reimbursement model. Staff, physicians, administrative leaders each express obstacles with the same complaints “wouldn’t it be nice if?” or “we need this to improve” and all that comes to mind is that OPNS is and has been providing these features within the Health Focus Registry for quite some time now.

It’s a matter of **adapting** and **embracing** the Health Information Exchange platform as a means to **succeed** in providing process quality based, excellent care.

Adapt

Exchange faxing with electronic secure messaging

- Are you still using a flip phone from the early 2000s or do you use an iPhone or Droid? Why did you upgrade?

Embrace

Obtain your information in one location

- Why go to each health plan site for discharge information when OPNS provides all payer statewide discharge data in Health Focus?

Succeed

Network Integration

- Improve outcomes through open communication and information sharing

Process Improvement

Adapt

Health Focus Registry - Now publishing St. Joseph Mercy Hospital Oakland Powerchart Notes

You can now obtain:

- Clinical Summaries
- ED Physician Notes
- Department Notes
- Radiology Results

As well as numerous other Powerchart Notes.

Use for efficient, pre-planned and follow-up post discharge visits.

Share with Specialist eConsult!

Did your first cell phone...?

Provide you turn by turn directions, allow you to video chat with friends and family, monitor your finances, track your fitness, read the news, track down an Uber or Lyft?

Does your fax machine...?

Trend results, aggregate patient information, maintain a history of services, patient demographic changes, and report what patients are in need of a Colonoscopy?

Why did you switch to an iPhone or Droid? Why not do the same for your daily tasks?

Did you change because the new phone was easier and allowed you to do more?

Health Information Exchange represents the same methodology in making things easier for you!

Embrace

Succeed

Congratulations to Dom at SJMH Medical Practice - Union Lake Pediatrics

January 2017 through June 2017

Dom has accessed 98% the Following Admit, Discharge, and Transfer (ADT) reports in Health Focus:

Dr. Stacey Gorman 174/177 Available ADT Reports

Dr. Amy Kowalski 173/176 Available ADT Reports

Dr. Geetha Nair 161/164 Available ADT Reports

Remember - One portion of the 2017 OPNS Physician Incentive is to access 75% of the ADT Reports!

Yasir's Thoughts - Simplifying workflow

What technology enhancement have you embraced that improved your workflow?

What can make my job easier?

Feel free to share with the OPNS Informatics Team. We can share with the network!

How has the enhancement improved your workflow?

Kim's Clue

August's Informatics Digest has a new format for Kim's Clue called:

Kim Bits

Find the three Kim Bits throughout the August Informatics Digest.

Email the three Kim Bit words to OPNS.

Drawing winner gets a box of Tim Horton's Timbits to go with a \$25 gift card!

Email your response to info@opns.org by August 31, 2017.

Congrats to Angie from MHP CMG! Winner of June's Kim's Clue!
