

OPNS Informatics Digest

May 2017

Health Focus Registry eReferral
Now available!

June IT Digest will feature the eReferral tool!

3 Clicks

- Select Patient Insurance
- Select Specialty Type
- Select OPNS Specialist

More to come! Stay tuned! Be ready for the simplicity you've been asking for!

OPNS Informatics

The OPNS Informatics team is providing you with the tools.

We're also here to help.

Let's use the tools to build our Patient Centered Medical Home and create our Patient Centered Medical Home Neighborhood.

We're here to help educate on why these tools are useful!

2017 Technology Infrastructure and Usage Metrics

The OPNS Informatics Team is here to help you succeed!

- OPNS delivered letters specific to each physician and their utilization of technology. The technology platforms encouraged for utilization are intended to coordinate care in an efficient and electronic fashion. We're available for any questions, but here is a quick reference guide to simplify the requirements!

What are the four areas of focus?

- IT Survey - We pre-populate from your previously provided responses. Just review, change if necessary, or say you're all set!
- Registry - Yes, the EMR is home to the record. The Registry aggregates quality data from external encounters as well.
- DPRO - Tight on time? This web-based tool can train new staff on PCMH/PCMH(N) initiatives and interpretive guidelines.
- eReferral - We're organizing care. Tracking referrals efficiently and electronically. We've heard its easier from early adopters!

REMINDER: Accounts to OPNS Health IT Systems

A friendly reminder that OPNS IT disables user accounts after 30 days of inactivity.

OPNS Website

Health Focus Registry

Be sure to do the same within your own practice systems, especially as employees leave the practice.

Keys to Success!

Submit IT Survey

- OPNS emailed the survey on April 19, 2017:
 - Review, update/edit, or confirm no changes
 - Return to OPNS promptly
 - We'll report to the health plans for you!
