## Do you have a log in for Physician Direct Focus?

### **(Logins for Health Focus will still work for Physician Direct Focus)**

OPNS has been utilizing a web-based registry, Physician Direct Focus, for a multitude of benefits.

- Daily Admit, Discharge, and Transfer reports
- Monthly Unmet Measure Reports
- CCDs from interfaced EMRs
- Discharge Summaries from MiHIN
- The all new eConsult tool
- St. Joe's PRISM Scores and ER Risk Scores
- St. Joe's Clinical records
- Professional, Pharmacy, and Facility Claims data

**Contact the OPNS Informatics team for access and training!**

## Daily ADT Reports

OPNS publishes daily ADT reports on PD Focus. These ADTs include data from facilities throughout the state of Michigan. The information provided on the ADT reports can help you follow up on your hospitalized patients (IP/ER).

### Why Use Them

- Know where your patients are and why
- Schedule follow up visits
- Reduce readmission rate

### Continuous Enhancements

ADT reports are constantly evolving. Our goal is to deliver correct, actionable data. If you notice any issues in your ADT report, please alert an OPNS Informatics Team member.

We appreciate your feedback and continuous support.

### A new look to Physician Direct Focus?

Physician Direct Focus will be undergoing a cosmetic update in the coming weeks. Stay tuned!

### PRISM Scores Anyone?

Stay tuned for new PRISM Score Reports coming to Physician Direct Focus soon!

Access is rigorously monitored for 2018 Informatics Incentive. Monthly reports are being generated and sent to office managers to track progress.

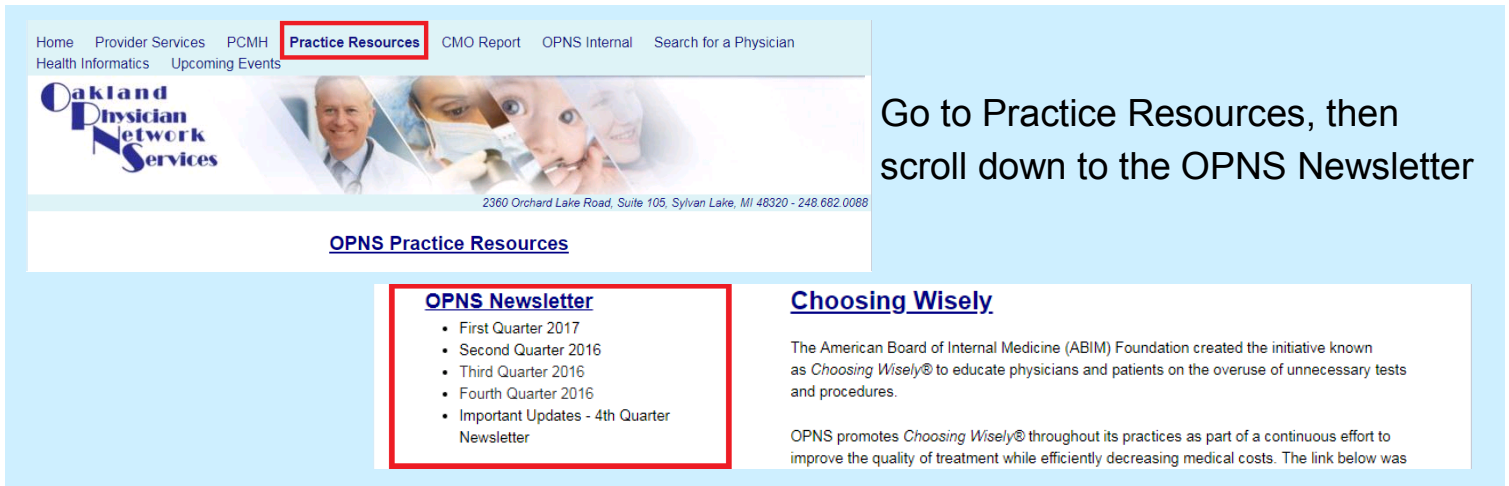

Unmet Measure Reports are monitored for access within 30 days of posting.

ADT Reports are monitored for access within 7 days of posting.

Please notify the Informatics Team at OPNS if you need any additional help.
